

Plus Recovery Services

Overview	<p>PPM Plus® application suite includes Recovery Services, which is our secure backup and disaster recovery solution for your practice’s data. Using a simple desktop application, you can easily back up your PPM Plus database (or specified folders and files) to the PPMIS Data Center. You determine what data will be backed up, when it will be backed up, and how long the data will be retained on the server.</p> <p>In the event of a catastrophe, PPMIS is at your service so that you can quickly resume business and maintain cash flow. We can restore your data from any location where an Internet connection is available.</p> <p>Your backups are stored in a secure, state-of-the-art data center that is monitored 24/7. The use of redundant servers ensures the integrity and safety of critical data at all times.</p>
