

Manage all aspects of your medical billing with the PPM Plus® application suite.

A fully integrated billing system in a client/server architecture.

Plus Billing, the engine of the application suite, is fully configurable so that you can meet the requirements of individual payers.

Plus Billing delivers:

- Accelerated cash flow through its strictly enforced exceptional editing, resulting in clean claims.
- Error checks and claim scrubs occur throughout charge release and claim generation to ensure accuracy.

Plus Billing offers:

- Centralized account management
- Comprehensive reporting
- Electronic processing (claims, payments, and demographic downloads)
- Fully keyboard enabled charge entry
- Out-of-the-box ASA Crosswalk®

Round out the Plus Billing system with its add-on, complementary applications:

Plus Image Management – reduce filing and storage costs, and operate a paperless revenue management process.

Plus Scheduler – manage patient scheduling and provider time, and eliminate duplicate data entries.

Plus Report Writer – enhance the reporting capabilities of Plus Billing. Create highly refined results. Get the data that you want when you want it.
